

# PAYANYWHERE SMART TERMINAL

Introducing the wireless smart terminal that runs on PayAnywhere's point-of-sale software.

**The perfect bridge between a traditional terminal and a complex POS system, the sleek, versatile, and portable PayAnywhere Smart Terminal combines:**

A compact design featuring a 5" touchscreen, EMV chip card, NFC contactless, and magstripe reader.

Built-in receipt printer and front and back cameras for easy barcode scanning.

4G and Wi-Fi connectivity.

Payment acceptance on your counter, around your location, or on the road.

The PayAnywhere Smart Terminal comes with access to PayAnywhere Inside, the online portal with the data and tools to power your business.

- ✓ Accept online payments and create recurring invoices.
- ✓ Manage employee permissions, customers, and chargebacks.
- ✓ View, compare, and export real-time data for sales, customers, employees, and products.

# ACCEPT PAYMENTS. RUN YOUR BUSINESS.

## Terminal theme

For quicker transactions, use a simple interface that works like a traditional credit card terminal.

## Retail theme

Create a custom item library with categories, modifiers, multiple prices, and stock management.

## Tickets & tabs

Open a ticket, run a card to start a tab, and close it out when the customer is ready. Perfect for bars and restaurants.

## Time clock

We've teamed up with Homebase to offer a free time clock and employee scheduling functionality.

## Sign & tip

Give customers the opportunity to tip with preset options or a custom amount when they are signing for their transaction.

## Built-in receipt printer

Allows for printable, emailable, and textable receipts.

## CALL (866) 710-7382 FOR MORE DETAILS.
